"I have finally found a dentist that is concerned about painless dentistry as I am. I delayed my return to the dentist much too long to avoid the pain I anticipated. Dr. Uribe and Dr. Lopez are true professionals who can arrange for any kind of dentistry I may need and arrange appointments for my convenience. I have total confidence in their skill, and am impressed by the cleanliness, décor, and patient comfort at the Emmanuel Dental Clinic."

We are pleased to highly recommend Drs. Armando & Keren Uribe and the services of Emmanuel Dental Clinic. EVERY service we've had done, from cleanings to bridge work has been excellent and performed with caring, professional skill in a peaceful (that's very important at the dentist), up-to-date office. We are SO pleased that we are planning another trip to have the remainder of our work done. It's so reasonably priced that we can fly there, have the work done and still save \$\$ from what our local dentists charge. We get all this & can help to bless the ministry at the same time!!
